NAMA BIO-Center

رعاية الطبية CARE MEDICAL

مستشفى الملك فيصل التخصصي ومركز الأبحاث
King Faisal Specialist Hospital & Research Centre

جامعة الملك سعود
King Saud University

1 Feasibility & Core Team Setup

- Conduct BE Center feasibility study.
- Select and recruit the core operational and clinical team.
- Build financial model and projections for sustainability.

2 Legal & Partnership Framework

- Draft and finalize collaboration agreements:
- NAMA (Ops), CARE Medical (Clinical), and KFSHRC (Bioanalytical).
- Establish legal pathways for NAMA Bio-Center operations.
- Execute CARE Medical and KFSHRC vendorship agreements.

3 Co-Branding & Regulatory Identity

- Tri-party co-branding agreements completed.
- Technical and legal reviews finalized.

4 Facility Planning & System Design

- Clinical site inspected and 2D layout approved.
- SOPs, QMS documents, and Quality Manual developed.

5 Operational Readiness

- Civil work designs completed and is in progress
- Procurement plans and tech infrastructure blueprint ready.
- Internal mock audits and regulatory file drafts initiated.

6 Strategic Funding Injection

- The final SAR 2M to activate operations and execute the first batch of BE studies.

7 Civil Work & Infrastructure Setup

- Renovate and furnish the clinical unit.
- Install equipment and utilities across units.

8 System Activation

- Activate QMS system and implement operational workflows.

9 Systems purchase and Installation

- EDC System installation, licensing PK&PS softwares and perform equipment calibration and setup.

10 Staffing & Operations Launch

- Hire full-time operations, regulatory, and clinical teams.
- Initiate first 5 BE studies.
