Curacel

Transforming Health Insurance Operations with AI.

AI PriorAuth

Streamline the prior authorization process with AI-powered automation, reducing approval times and improving efficiency

AI Claims

Accelerate claims adjudication with advanced AI. Automate medical, benefits, and pricing reviews for faster and more accurate processing.

AI FWA

Detect fraud, waste, and abuse with intelligent anomaly detection. Uncover hidden patterns and protect your claims data.

AI Extract

Effortlessly extract data in English and Arabic with AI-driven accuracy, simplifying integration with your systems.

Curacel Health

Walaa Discovery Recap

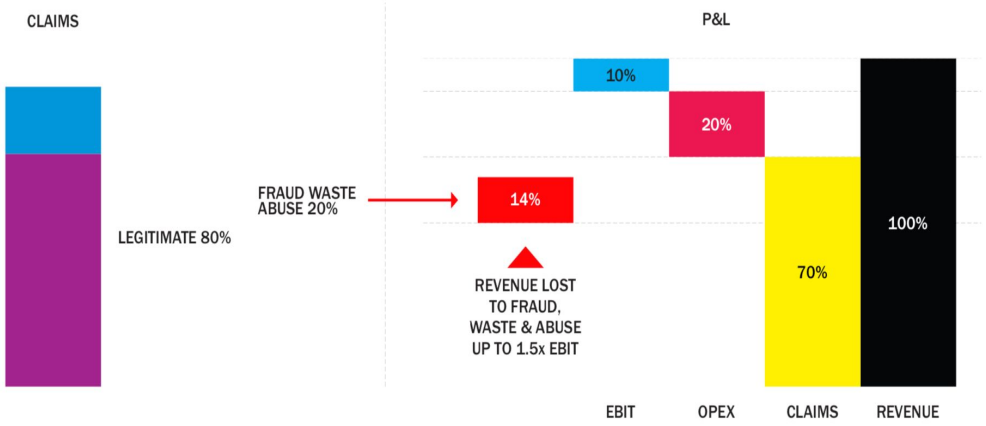
AI FWA

What do we know

- Walaa currently outsources claims processing to a Third-Party Administrator (TPA).
- Concerns about claim processing quality and support.
- Plan to bring claims processing in-house by January 2025.
- Strategy to regain control over claims management.
- The team is swamped with managing claims internally.
- Require a detailed demo and pilot project before fully committing to AI-based solutions.

The Problem

Insurers lose significant revenue to fraudulent, wasteful and abusive practices during the claims process.



Meeting Agenda

Walaa Operations Overview

Current claims processes and challenges

AI FWA

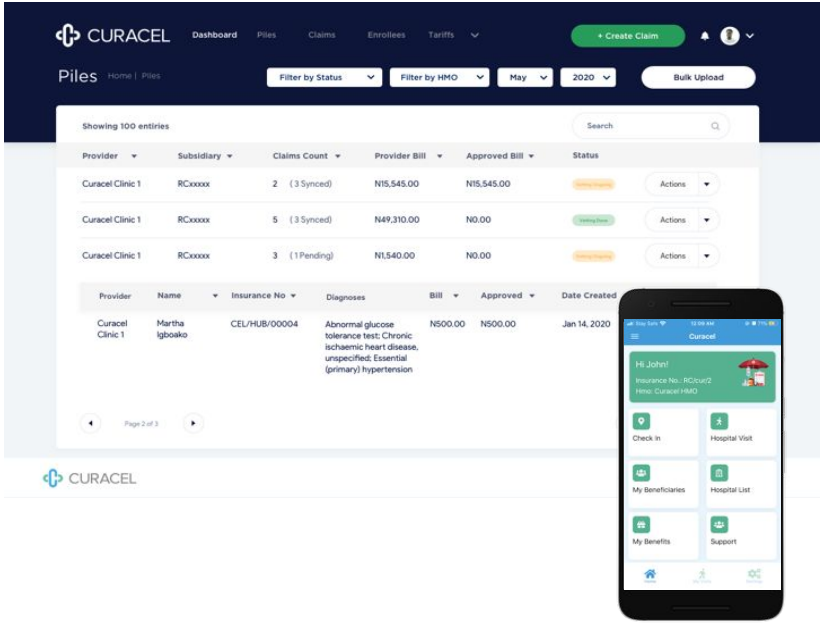
Overview of fraud detection and automation features.

Real-world Scenarios

Real-world scenarios: fraud detection, claims automation, and analytics.

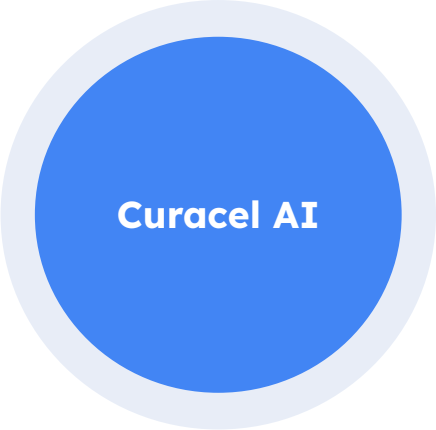
Curacel Health

- Enables health insurers to easily digitise and automate their claims process
- Our solution leverages AI to **accelerate the claims process and increase accuracy in fraud detection and waste reduction.**
- Our solution adjudicates claims quickly and efficiently thereby **reducing the claim cycle by over 89%.**



Curacel

Detection - AI Auto-Adjudication & Fraud Analytics

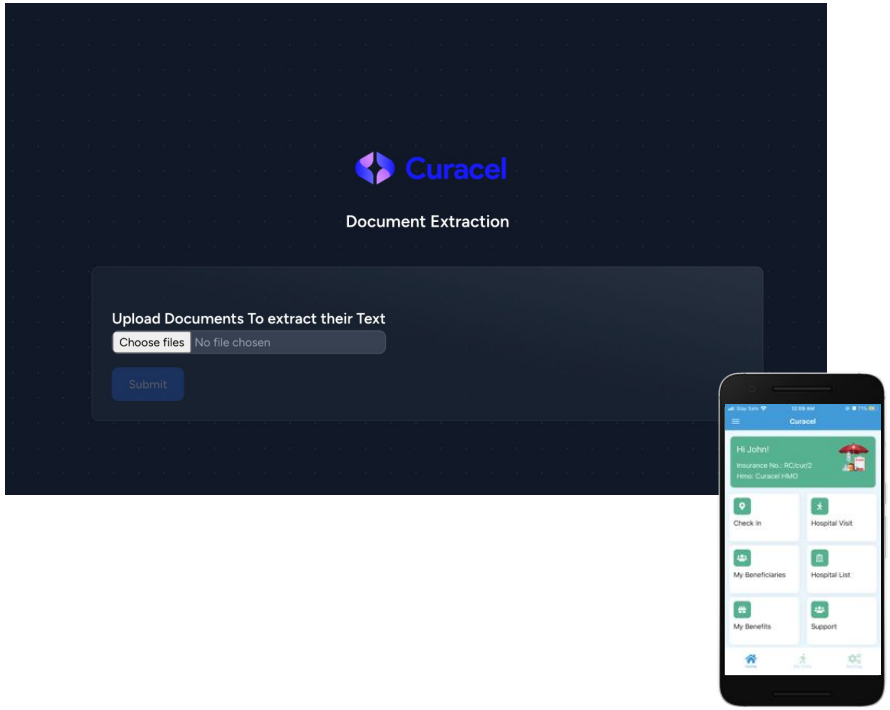


How can our **Health** solution help ?

- 99.9% accuracy on clinical, operational and underwriting adjudication
- Significantly reduce overhead costs for Walaa
- Analytics into fraud patterns on claims, providers, patient reimbursements & encounters

How does this Impact Walaa

- Reduced Human resource allocation = **Lesser operational expenses**
- **Faster Turnaround Time** thereby satisfying your network of Providers and Insurers better.
- Gives more **efficient workflow** to all Providers in your network that don't have the time to submit digital claims
- Reduce Risk of Human error and fraudulent claims



Solutions Partner to the biggest Payers

Juan Cazcarra
CFO AXA

"Curacel's technology has helped to drastically reduce AXA's turnaround time for claims processing and led to over 20% cost savings from curbing Fraud, Waste & Abuse (FWA), saving us $13m in 6 months of deployment"

Thank You!
