Leadership Team

Ahmed Abdulla, Mohamed Haroon Rahman, and Mike Smith represent the Digipharm Senior Management Team, and are collectively responsible for the overall project, provision of the underlying technology platform, blockchain and smart contracting components, definition and creation of the service, and facilities for interaction between all parties.

Ahmed Abdulla – CEO

https://www.linkedin.com/in/aahealtheconomics

A health economist by trade and founder of Digipharm. He serves as an National Technical Expert for Switzerland at the UN/CEFACT (Center for Trade Faciliation and E-Business) where he is the Project Coordinator for the Blockchain in Healthcare and a member of the advanced technology advisory board. Ahmed's background includes his role as a Global Health Economist at pharma giant Roche, leading the global health economics team for Lung Cancer. He is also Commitee member for the TDABC Consortium and has several high impact publications.

Mohammed Rahman – COO

https://www.linkedin.com/in/mohammed-rahman-86b0a916

Over 17 years of experience in the Pharmaceutical industry working in strategic projects and process leader roles for Roche, Fisher Scientific, 3M and GSK.

Achievements include successfully integrating blockchain technology to provide complete oversight of the Bio-sample life-cycle from patient consent through to data analysis for Roche.

Mike Smith – CTO

https://www.linkedin.com/in/mike-smith-aa4178

A seasoned experienced Technical Leader and solutions designer for the healthcare industry. Mike's experience includes management of global solutions and transforming business needs into software solutions, specialising in identify management, data sharing, encryption and patient confidentiality for organisations such as MedeAnalytics, BT Health, NHS Digital, ATOS and CSC.

Consulting Team

Brian Mangan

https://www.linkedin.com/in/brian-mangan-fcips-b32237a/

Developed the practical framework for VBP adoption within the UK NHS resulting in:

- The formation of a VBP savings pipeline of £230m.
- Created the national VBP framework for NHS Supply Chain which is now being used by NHS providers across England.
- He is an Advisor at the French Health Ministry on their VBP adoption projects.
- He is a founder and executive board member of the European Association of Value Based Healthcare.

Dr. Sally Lewis

https://www.linkedin.com/in/sallylewiskintsugi1/

Transformative leader in the Welsh healthcare system, best known for pioneering and establishing the **Welsh Value in Health Centre**, one of the first national bodies in the world dedicated to implementing Value-Based Health Care across an entire country.

A driving force behind the national VBHC strategy, her work has elevated Wales to a position of international recognition, making it a leading example of a nation committed to building a sustainable health system that delivers better outcomes for all.

Hans Bax

https://www.linkedin.com/in/hansbax1/

Member of the European Commission's Stakeholder Expert Group on Public Procurement (SEGPP) and member of the ICHOM Conference Advisory Committee. He is responsible for leading the Value and Innovation-based Access team, focusing on reimbursement, funding, value demonstration, and procurement at MedTech Europe and is regarded the leading global expert in value-based procurement in the medical device industy.

Dalia Dawoud

https://www.linkedin.com/in/dalia-dawoud-8b2478159/

Formerly the associate director (research) at NICE. Dalia leds the NICE HTA Innovation Laboratory (HTA Lab) as well as NICE's portfolio of European Commission funded projects, such as the Innovative Health Initiative (IHI) Integration of heterogeneous data and evidence towards regulatory and HTA acceptance

(IDERHA) and the Horizon Europe Support Utilisation of Sustainable and Tailored Innovative methods for HTA (SUSTAIN-HTA) projects.

She serves as associate editor of the International Society for Pharmacoeconomics and Outcomes Research (ISPOR) journal, Value in Health and as director on the ISPOR board of directors (2023-2026).
